

EUROPEAN BIOSOLIDS & ORGANIC RESOURCES

CONFERENCE & EXHIBITION

13-14 NOV 2018, ROYAL ARMOURIES, LEEDS

Europe's leading conference for the biosolids and organic resources industries

Don't miss the opportunity to present your work to over 250 leading industry professionals from around the world. The conference programme regularly consists of 60+ technical presentations delivered by high-profile water and resource management industry experts.

Now in its third decade, the event provides an essential annual update on:

- Legislative changes
- New technologies
- Best practice/site-experiences with existing technologies
- Key research in the science and engineering of biosolids and organic resources production and use.

Abstracts should be submitted to frances.woodhead@aquaviro.co.uk by **4th June 2018**. Please see overleaf for full details.

Call for Papers

We are inviting contributions on the following topics:

Pre-treatment, including

- Thickening and dewatering of sewage sludges
- Hydrolysis processes for sewage sludges, crop residues and other substrates
- De-packaging of waste materials

Treatment processes for sewage sludges and other organic residuals, including

- Anaerobic digestion
- Advanced thermal processes (including gasification, pyrolysis, hydrothermal techniques)
- Maximising energy production
- Process efficiency
- Emerging technologies
- Thickening and dewatering of sludges, food and crop-derived digestates
- Liquor treatment

Managing emissions during and after treatment, including:

- Ammonia and other gaseous emissions from food / farm-fed AD and during subsequent digestate management.
- Odours and bioaerosols
- Storage and stockpiling

Biogas management, including:

- Clean-up
- Future options for biogas use, such as biomethane to protein

Circular economy and end of waste, including:

- Nutrient recovery
- Emerging contaminants in treated sewage sludges and other organic resources, including nanoparticles, microplastics/macroplastics, organic compound contaminants and Anti-microbial resistance
- Assurance schemes for treated sewage sludges and other organic resources
- Non-agricultural markets for organic resources, biosolids, recovered nutrients and other materials
- Improving and protecting the soil resource
- Landbank availability

Abstract Deadline - Monday 4th June 2018

If you would like to share your expertise/experience with the industry, we want to hear from you. Please submit a 150 word abstract that includes:

- **The title of the paper**
- **A summary of the contribution**
- **The key theme**
- **Authors names and contacts details for the corresponding author**

Please email your abstract to franceswoodhead@aquainviro.co.uk by **4th June 2018**.

Students and Young Professionals Award

Entry to the Students and Young Professionals Poster Award open to students and young professionals under 35 working in the water industry. If you are interested in submitting an abstract for consideration please following the instructions above indicating that you would like to be considered for the Award.

Attending conferences is a great way for improve your professional network and expand your knowledge of the industry. We are therefore offering students and young professionals significantly reduced rates to encourage attendance. Visit the [website](#) for full details.

Sponsorship & Exhibition

This highly-regarded annual conference offers a fantastic opportunity to increase your company's profile and gain brand awareness through sponsorship & exhibiting. It offers an excellent platform to engage with potential clients and be associated with **Europe's leading conference** for the biosolids and biowaste industries.

Over the past 18 years, the conference has developed a brand of its own and a **reputation for quality** which adds value for all organisations that are associated with it. This isn't a one off marketing opportunity – the Conference offers sponsoring organisations the opportunity to become involved on a regular basis in a **prestigious** and talked about industry event.

The [packages](#) we have put together are just a guide to what is on offer – if you would like to discuss specific requirements please don't hesitate to get in touch. e. franceswoodhead@aquaviro.co.uk, t. +44 (0)1924 25789.

The cost to [exhibit](#) is **£995 (+VAT) for 2 days**. This includes a 3m by 2m exhibiton space, 1 person to man the stand, lunch & refreshments, table & chairs if required and wifi.

Testimonials

“The possibility to meet the key technical people involved in the different aspects of the sludge treatment during 2 or 3 days, outside the conventional business environment, is invaluable.

Technical Director, Veolia Water Technologies

“I found the conference to be absolutely superb. The venue and location at the Town hall in Manchester was fantastic

*Wastewater Global Service Team Deputy Leader,
CH2M HILL*

“I find the conference to be well organized, held in a great and convenient venue, and have a consistently high technical level of papers based on latest and cutting edge technologies and ideas. I always look forward to coming back.”

Technical Director, Cambi
